Gov. Walker Signs Concealed Carry Bill

Friday, July 8th, 2011 marked the day that Governor Scott Walker signed the Wisconsin Concealed Carry bill into law. The law will take effect on November 1st of this year, and allows people to carry concealed weapons in public, provided that they have received the proper training and have obtained a permit.

This law makes Wisconsin the 49th state to adopt a Concealed Carry law. Illinois remains the only state in the Union that does not allow Concealed Carry.

Advanced Protection Group Classes

Advance Protection Group LLC (APG) and Portage Rod and Gun Club have partnered to provide a

venue to hold classes for the Wisconsin Concealed Carry Permit.

Dominic Ferraro (seen here with Governor Scott Walker) is the President of APG and personally manages its daily operations. Dominic is currently working with the club board to set up a recurring class schedule to be held in Portage at the clubhouse. The plan is to set up a series of classes throughout the remainder of this year.

To find out more about APG and the training that is offered, we encourage you to visit their website at <http://www.apgwi.com> and see if you have an interest in obtaining some training. As we develop a training schedule, dates will be posted both to the club website event calendar, as well as APG's calendar.

Online Newsletter Subscriptions Grow

The online newsletter continues to be a success. Currently over 25% of our members are receiving the newsletter via email and the list is growing. If you would like to receive the newsletter via your email, please fill out your name and E-mail address on the Newsletter page on the website. Our subscriptions continue to increase and we thank you for your interest.

Don't Forget - Registered Shoot in September

Just a reminder that we have a registered shoot date coming up in September. And also don't forget, the Winter Jackpot shoot and fish fry date has been published as well. Please visit the website for dates and details - it's all on the event calendar. Stop back often. With more things being planned this year, the event calendar will be your best window into club activities and dates.

From the Webmaster...

Hello Friends,

2011 continues to be an eventful year at the club, with lots of new things going on.

With the passage of the Concealed Carry Bill and its ultimate signing into law, the Board is pleased to announce its partnership with APG and Dominic Ferraro. It is our hope that members will take advantage of this valuable training.

With more and more members interested in pistol training and shooting, it will not be surprising to see more activity at the pistol range on weekends. The board wishes to remind Club members to respect each other's range time and obey all range rules while using the facilities. Remember to be safe at all times, and enjoy some time at the range.
